My Portfolio Website: <https://wemppywp-portfolio.vercel.app/>

As a Senior Software Developer with more than 5 years experience in Mobile Development (Native Java & React Native) and Web Development (.Net MVC, Reactjs, PHP). Furthermore, I also handle databases (MySQL & SQL Server), Processmaker for form requests to approval, and use waterfall and Scrum methods in the application development process, using Microsoft Team Foundation Server and Github/Bitbucket for personal projects.

WORK EXPERIENCE

Software Developer, PT. iForce Consulting

February 2019 – Now

- Actively working at the client (Trakindo Utama) to support and develop mobile applications and web development.
- Handled are mobile development (Native Java & React Native), Web Development (.Net MVC, Processmaker), database (MySQL and SQL Server), REST API development, etc.
- The waterfall method is used to support applications and currently I am on a development team that uses the Scrum method.
- collaborate with various teams such as Business Analyst, SAP Team, PowerApps Automate, Server Team, etc.
- For several applications, I am also a system analyst to carry out analysis regarding applications that will be enhanced according to the needs of the user/business analyst.
